Every new year, we make a promise to better ourselves. While we try to stay committed, we tend to fall short of a full year's resolution. So this year, let's make goals for ourselves rather than a resolution.

BETTER YOU TIPS from John Oliva, Corpus Christi Caller times article, December 29, 2022

1. Be creative

Adopt a new hobby

2. Become social again

Because of COVID, we isolated our selves, so begin hanging out with friends and family in social gatherings and making new friends

3. Eat Healthy

Watch what you eat. Drink more water

4. Get a green thumb

Keep a plant alive this year

5. Less TV, more music. According to a study by Harvard, music helps improve your mental health, alleviates stress and anxiety, and helps you focus on tasks. Read at least one book each month

Recruitment
Tips

“Can We Talk?”

Look for potential members during your weekly errands and/or appointments at the hair and nail salons, doctor’s office, neighborhood gatherings, child’s school functions, church, career- related and business meetings. Consider purchasing personalized purse-size planning calendars with the sorority name and your contact info that can be shared. That would work great here as well as sharing your business cards.
